PROFILE SUMMARY

A results-driven MERN-Stack Developer with 2 years of experience in building scalable web applications. Skilled in HTML5, CSS3, Javascript, React.js, Next.js, and TypeScript, I create dynamic, responsive user interfaces. On the back end, I specialize in Node.js, Express.js, and MongoDB, developing robust APIs and scalable database architectures.

With expertise in Stripe payment integration, I ensure secure and seamless transactions. I excel in RESTful API development, authentication (JWT, OAuth, NextAuth), and third-party integrations. Passionate about performance optimization, I enhance database queries and server efficiency.

Thriving in Agile environments, I collaborate with teams to deliver high-quality, maintainable solutions. Constantly learning and refining system architectures, I stay ahead in modern web technologies.

PROFESSIONAL EXPERIENCE

MERN-Stack Developer | Technords | Swat

[March 2023 – March 2024]

As a MERN-Stack Developer, I have contributed to the development of different projects and dashboards by utilizing technologies such as ReactJS, Next.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap, and Material UI. I specialize in transforming designs from Figma and Adobe XD into responsive, fully functional web applications.

Key Responsibilities:

- Collaborated closely with Backend Developer to drive front-end development, ensuring seamless integration of features and user interfaces.
- Effectively translated Figma designs into responsive and performant React applications, enhancing user experience.
- Worked extensively on designing and implementing RESTful APIs, collaborating with the backend team to ensure smooth integration and functionality.
- Leveraged modern technologies such as React.js, Next.js, and TypeScript to deliver high-quality applications aligned with project goals.
- Actively participated in daily standups, and retrospective meetings with the product team to align development efforts and ensure timely delivery.

MERN-Stack Developer | Bxtrack Solutions | Rwp**[June 2024 – Aug 2024]**

Contributed to the development of a responsive e-commerce site using React.js and Bootstrap. Gained hands-on experience with GitHub, GitLab, and Firebase, improving development skills and version control practices.

Key Responsibilities:

- Developed and implemented responsive UI components using React.js and Bootstrap.
- Developed responsive UI components with React.js and Bootstrap.
- Integrated APIs for seamless frontend-backend communication.
- Ensured mobile optimization and cross-browser compatibility.
- Managed version control using GitHub and GitLab.
- Utilized Firebase for real-time database integration and user management.
- Participated in sprint planning, code reviews, and team meetings.
- Debugged and optimized the website for better performance and user experience.

MERN-Stack Developer | Tech Creator | Swabi**[Aug 2024 – March 2025]**

As a MERN-Stack Developer, I have played a key role in building dynamic and visually engaging web applications, leveraging modern technologies like React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap, and Material UI. With a keen eye for design and detail, I specialize in transforming Figma and Adobe XD prototypes into fully responsive, pixel-perfect, and interactive user experiences. My expertise lies in crafting seamless, high-performance interfaces that not only enhance usability but also elevate the overall aesthetics of web applications. Passionate about clean, maintainable code and modern UI/UX principles, I am committed to delivering intuitive and high-quality digital solutions.

Key Responsibilities:

- Worked closely with backend developers to ensure seamless front-end integration and feature implementation.
- Transformed Figma designs into fully responsive and high-performing React applications to enhance user experience.
- Designed and implemented RESTful APIs while collaborating with the backend team to ensure smooth functionality.

- Utilized modern technologies like React.js, Next.js, and TypeScript to develop high-quality, scalable applications.
- Engaged in daily standups and retrospective meetings to coordinate development efforts and meet project deadlines efficiently.

EDUCATION AND QUALIFICATIONS

BCS (software)

University of Malakand.

PROJECTS

Nimesa:

- Developed a Responsive Web Application
- Built for Nimesa
- Used Next.js & Tailwind CSS
- Ensured Optimal Performance
- Responsive Across All Devices

Link: <https://nimesa-five.vercel.app/>

CellBird:

- Transformed Figma Design for Cellbird
- Built with Next.js & Tailwind CSS
- Developed a Functional Website
- Seamless User Experience
- Modern & Responsive Design
- Enhances Marketing Strategies.

Link: <https://cellbird-marketing.vercel.app/>

Technical Services:

- Transformed Figma Designs
- Built Responsive Web Pages
- Used Next.js & Tailwind CSS
- Developed Functional UI

Link: <https://technical-services.vercel.app/>

Blockcoin:

- Built UI for blockcoin
- Listing of different coins
- Admin Dashboard

Link: <https://figma-to-development.vercel.app/>

Experloop:

- Experloop Product Showcase Website
- Dynamic Animations for Offerings
- Built with Next.js
- Used TypeScript for Development
- Responsive Across All Devices

Link: <https://experloop.com/>

Contentia:

- User-Generated Content Platform
- Multi-Tiered Subscription Plans
- Order Management & Tracking
- Creator Matching System
- Robust Admin Dashboard

Link: <https://contentia-frontend.vercel.app/>

Bnbyond:

- Property Listing Platform
- Multi-Tiered Subscription Plans
- Integrated Google Calendar API
- Stripe Integration
- Admin Dashboard

Link: <https://beta.bnbyond.com/>

TECHNICAL SKILLS

- JavaScript
- TypeScript
- React.js & Next.js
- Redux Toolkit & Context API
- React Query
- Tailwind CSS
- Material UI
- Bootstrap
- CSS3 & HTML5
- GitHub
- Linear
- Vercel
- Netlify
- API Integration

SOFT SKILLS

- Analytical and Problem solving
- Teamwork
- Commercial Awareness
- Communication
- Critical Thinking
- Decision-Making
- Creativity & Innovation
